<input type="checkbox"/>	Sewer Re-Inspection Fee	\$25.00
TOTAL FEE ASSESSMENT		\$

A Site Plan (to scale) must be attached that include all of the following:

This checklist will aid the applicant in preparing a site plan. Permits that require installation of substantial improvements may require plans drawn and designed by a licensed engineer. Please check with City staff prior to submitting your application.

- Draw the plan to a standard Engineering Scale [1"=10', 1"=20" etc.] on a minimum size sheet of 8 1/2 x 11 and a maximum size of 11x17.
- Include the owners name, the parcel ID number, site address, north arrow, drawing scale and date.
- Include the contractor's name, address and phone number.
- Existing Right-of-Way lines, property lines, edge of pavement, curb/gutter, sidewalks, driveways and planting strips with dimensions between each.
- Adjoining street name(s) to the reference property.
- All existing public and private utilities in the area of the proposed project (Water, Sewer, Storm, Phone, TV, Gas and Power), dimensioned to the edge of pavement, curb/gutter, sidewalk, driveways, planting strips.
- If applicable show easements, critical areas such as streams, wetlands and steep slopes.
- Proposed new construction. The proposed improvements shall be shown in heavier line type than the existing information
- Dimension the proposed new construction to the edge of pavement, curb/gutter, sidewalks, driveways, planting strips, or another identifiable site feature that will help identify the proposed improvements in the field.
- Erosion Control Plan.
- Traffic Control Plan per current MUTCD (See standard drawings at <http://mutcd/fhwa.dot.gov>). If the work requires any lane or street closures, the City of Anacortes Public Works Inspector must be notified a minimum of 48-hours prior to scheduled work for proper public notification by the City of Anacortes.

Work within the City Right-of-Way is permitted by approval of the City Engineer. All work in the right-of-way must be bonded. The applicant and owner must use warning signs, traffic control, and barricades as necessary to ensure public safety in the work area. The applicant and owner must restore the right-of-way to previous condition. Permanent restoration may include overlays of portions of the right-of-way and restoration of landscaping which have been disrupted by excavation work. The applicant and owner are liable for damage to public and private property.
