**Subject:** 1706 - 28th , Verizon vegetation removal

Steve,

Concerning 1706 28th St vegetation removal Verizon. I tried on several occasions to contact the property owner/resident get vegetation that was removed by Verizon. I left voice messages, made several site visits in an attempt to contact owner/resident, left my business card with a family member. After several weeks and no contact and as Verizon was finished correcting a list of other worksite deficiencies in Anacortes. I concluded that it was no longer an issue for the property owner and told Bob McLaughlin - Contracts Inspector-Verizon to strike that one from his list and to consider all correction required by the City as completed.

J.M. Baldwin  
Public Works Inspector  
City of Anacortes
